

LET'S TALK KINETICS!

Biomolecular Interactions Workshop

GRATING-COUPLED INTERFEROMETRY (GCI) TECHNOLOGY

- ◆ Higher signal, lower noise, faster transitions
- ◆ A step closer to a 1:1 model
- ◆ Is label-free limitation-free?

THE CREOPTIX WAVE SYSTEM IN ACTION

- ◆ From the weakest to the tightest binder
- ◆ Closer to native environments:
membrane proteins, serum, plasma, and more
- ◆ Experience real kinetic data

WITH SPECIAL PRESENTATION BY KASPAR COTTIER, CTO AND FOUNDER OF CREOPTIX
